## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/21/06 has been entered.

### ***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

3. Claims 1-20 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

1. Regarding claims 1, 9 and 16, the language of the claims raise questions as to whether the claims are directed merely to an abstract idea that is not tied to a technological art, environment or machine which would result in a practical application producing a concrete, useful, and tangible result to form the basis of statutory subject matter under 35 U.S.C. 101. Specifically, the method for defining attributes of polygon border tiles, as disclosed in claim 1, a computer-readable medium having computer-readable program code embodied therein, as disclosed in claim 9, and a computer system, as disclosed in claim 16, are directed to an algorithm, which is an abstract idea

that do not correspond to any specific real world data. These claims do not claim any "practical application" or "useful, concrete and tangible result". See MPEP 2106 IV (B)(1).

4. Regarding claims 2-8, dependent on claim 1, the examiner gives the same reasons as stated above.

5. Regarding claims 10-15 and 17-20, dependent on claims 9 and 16 respectively, the examiner gives the same reasons as stated above.

***Allowable Subject Matter***

6. Claims 1-16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 101, set forth in this Office action.

7. The following is a statement of reasons for the indication of allowable subject matter:

8. Regarding claims 1, 9 and 16, the prior art of record fails to show, either individually or in combination, designating a same single edge for each border tile and generating attributes of the border tiles based on whether only the single designated edge of each border tile crosses the polygon, is within the polygon, or is outside the polygon.
